JAB Technologies Inc partners with Element 119

Now a true Nano Ceramic Product available to Canadians

Montreal, March 8, 2022 JAB Technologies Inc and Element 119 announced today that the companies have entered into a strategic partnership that this agreement will allow JAB Technologies to directly fulfill and service automotive dealerships, marine dealerships, RV, Trailers as well as Aeronautics and detailers for all their ceramic coating needs.

The addition of System X's products, the market leader in ceramic coating allows JAB Technologies to strengthen its position in the distribution of ceramic care products and our ability to deliver unmatched service, support and above all, a superior product to our clients," said Jason Olive, JAB Technologies Chief Executive Officer.

System X's origin began back in 2010 as a specialty coating company, specializing in the aerospace industry. Coatings were developed for the likes of Boeing, Bombardier and Sikorsky. After years of research and development, the same coating and protection is now available for the automotive space.

"System X is focused on delivering the best, most efficient, longest-lasting coating technology on the planet. We are thrilled to be partnering with System X as we work to surpass our clients' expectations and needs, and those of their clients. We are now able to offer our clients key benefits never seen in the automotive space, such as lifetime

warranties with ONE simple application backed by SystemX and more importantly, the fact that we are the only ceramic coating recognized and registered with **Carfax.**" Said Jason

"As a premier manufacturer of ceramic coating products, System X is always looking to enhance its global distribution by building strong alliances. We are excited to be working JAB Technologies Inc to reach the marketplace in Canada. Their local market knowledge, industry experience, and distribution infrastructure present a unique value proposition that should be great for the marketplace" states Andrew Zeppa CEO - Element119
